Secret Code - Winter

Can you crack the secret code?

To solve it, answer each question and find the correct letter that matches your answer. Then, fill in the blanks with those letters to reveal the hidden message!

We believe in you — you've got this!

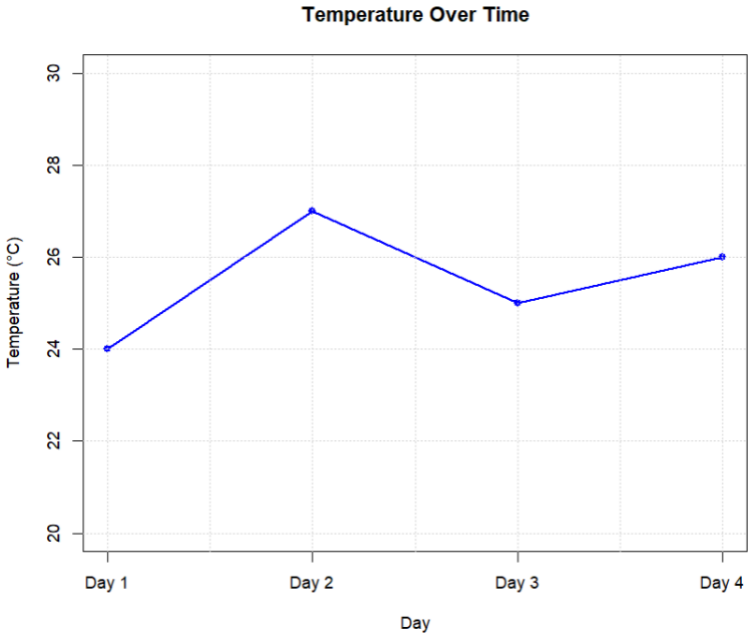

A: 35-40	B:25-30	C: 40-45	D: Metric
E: 65.5	F: Median	G: Range	H: Outlier
I: Standard	J: Line Graph	K: Bar graph	L:Histogram
M: Box Plot	N: 4	O: 26	P: 3
Q: 7	R:5	S: Interquartile Range (IQR)	
T: 25	U: 24	V: Celsius, Standard	
W: Celsius, Metric		X: Fahrenheit, Metric	
Y: Fahrenheit, Standard		Z: 66	

1	2	3	4	5	6		6	5	7	4	7		4	8	5		9	5	10	7	4	.					

Questions

1) What unit is used to measure temperature on the dashboard, and what measurement system does it belong to?

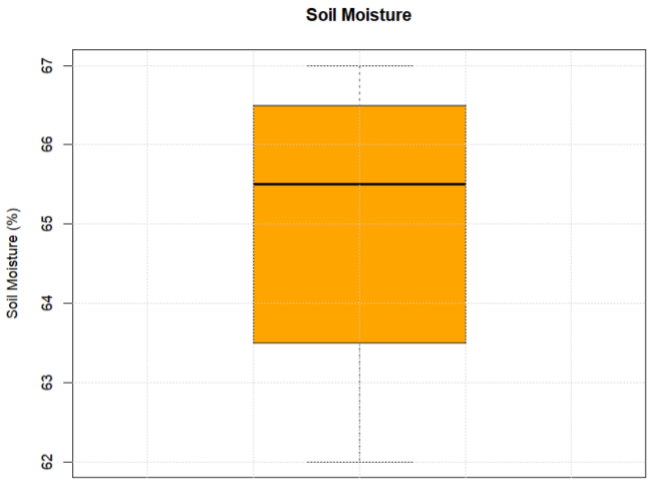

2) Which measurement system uses °F and inches?

3) How many days of data are shown in the line graph for temperature?

4) What is the temperature value on Day 3 in the line graph?

5) According to the box plot, what is the median temperature for the week?

6) What is the range of soil moisture on the given boxplot?

7) The range between the first quartile (25%) and the third quartile (75%) of the data — it shows where the middle half of the data lies. What is this called?

8) A number in a dataset that is much higher or lower than most of the other values. What is this called?

9) Which graph uses bars to show how often data falls in certain ranges?

10) In the soil moisture histogram, which range has the tallest bar?
